- To work hard for the development, quality and repute of the organization.
- To keep struggle for the maximum position and always to take positive and sound step of my Department.

QUALIFICATION:

2003	M.Sc. (Statistics) (79%)	B.Z.University Multan.
2001	B.Sc (Mathematics, Statistics & Economics) (69%)	Islamia University Bahawalpur
1999	F.Sc. (Math, Physics & Economics)	BISE Bahawalpur

DISTINCTION:

- I have secured **2nd** Position in **M.Sc. Statistics** from B.Z. University Multan.

COMPUTER SKILLS:

- Nine months basic short course in Windows 98, Microsoft Office 2000, Inpage (Urdu), CorelDraw & Internet Accessories.
- To handle computers and use statistical Packages (Minitab, SPSS, SAS) and expertise in using Microsoft Office. (MS word and Excel).

PROJECT & THESIS:

- I have done the thesis on the topic "Outlier Models & Prior Distribution in Bayesian Linear Regression" in M.Sc. Programme under the supervision of Dr. G.R.Pasha.
- **INTRODUCTION:** Bayesian inference in regression model is consider using heavy tailed error distribution to accommodate outliers. The particular class of distribution that can be constructed a scale mixture of normal distribution are examined and use is made of them as both error models and prior distribution in Bayesian linear model, including simple linear regression.

AREAS OF POST GRADUATE PROGRAMME & EXPERTISE:

1st Year:

- **Statistical Methods**
- **Probability & Probability Distributions**
- **Sampling Technique**
- **Demography & Statistical Quality Control**

2nd Year:

- **Statistical Inference**
- **Econometrics & Regression Analysis**
- **Experimental Design**
- **Research Report & Thesis**

EXPERIENCE:

- One year teaching experience in "Nice Degree College Rahim yar khan". In that college, I teach the classes of ICS, F.Sc, and B.Sc. B.com & MBA.
- I also teach the students of MBA, BBA, M.Sc. (Psychology and Sociology) & B.Sc. (Hons.) during my M.Sc. Degree.
- Currently I am working as a Lecturer In Statistics at Govtnament Degree College Sargodha under the employment of Govtnament of Punjab (Pakistan)

WORKING PROJECTS:

- "New Accommodation technique for Outlier in Univariate Data"
- Index of Discrete & Continuous Distribution with their mean, Variance, Moment Generating function and application of these distributions in real life situation are discuss.

- Index of Mixture of discrete and Continuous distribution and in-equalities, calculating their Mean, Variance & Moment Generating function.

INTERESTED AREA OF STUDY RESEARCH AND EXPERTISE:

- ❖ Demography and population study
- ❖ Forecasting Models & Time series Analysis.
- ❖ Project planning & Data Analyzing.
- ❖ Report Writing & making sound, effective and positive Decisions.
- ❖ Designing of Questionnaire & survey Management.
- ❖ Econometrics and Regression Analysis.
- ❖ Probability Distributions and Bayesian Inference.

PROJECT WORK & SURVEY:

- ❖ Currently I am working on sample survey with co-operation of Professor Amin Raza on the topic of:

1. Why Tuition System fail to produce creative ability of the students.
2. Social Evils in our Marriage System.
