The IIASA Alumni Association
helps you keep in touch
with the Institute and a
vast network of fellow
alumni worldwide

The IIASA Alumni Association

The Alumni Association, here to connect former staff with IIASA friends and colleagues, also provides a channel for supporting the Institute and its work. We like to contact alumni from time to time:

- to provide updates on IIASA news, research, and alumni events;
- to work together to promote IIASA and its Young Scientists Summer Program;
- to request feedback and ideas about the Institute, its programs, and possible future areas of research.

Contact the IIASA Alumni Association:

- to enroll on our alumni mailing list and update your contact details;
- to tell us about your professional career and achievements;
- to find a fellow IIASA alumnus or organize a reunion in your area.

Visit our website to sign up for our monthly e-newsletter, read about fellow alumni, or write your own IIASA story. We're also on Facebook (IIASA Alumni Association) and LinkedIn (IIASA Alumni, Collaborators and Friends). Keep in touch!

www.iiasa.ac.at/alumni

Located near Vienna, Austria, IIASA is an international institute that conducts policy-oriented research into problems that are too large or complex to be solved by a single country or discipline. These problems—which include climate change, energy security, and sustainable development—must be resolved by international cooperation. IIASA research comes under the following programs:

- Advanced Systems Analysis
- Air Quality and Greenhouse Gases
- Ecosystems Services and Management
- Energy
- Evolution and Ecology
- Risk and Resilience
- Transitions to New Technologies
- Water
- World Population.
