The Postdoctoral Program at IIASA offers fully funded research positions of up to two years to study topics related to IIASA's current research agenda.
IIASA Postdoctoral Fellowships

Postdoctoral fellowships are available at IIASA for researchers in the following fields:

- Natural and Social Sciences
- Mathematical Sciences and Modeling
- Interdisciplinary and Sustainability Sciences
- Integrated Assessment
- Management and Policy

IIASA provides full funding for a number of postdoctoral researchers each year. Scholars conduct their own research on topics closely related to IIASA’s research agenda.

An online application form and more information is available at www.iiasa.ac.at/postdocs.

The application deadline is 1 April each year and postdoctoral positions last up to two years.

Communication with relevant program representatives is strongly encouraged at the earliest possible stage, and before submitting an application.

Research at IIASA

Located near Vienna, Austria, IIASA is an international institute engaged in scientific research that provides support for policymakers on issues of importance in three global problem areas:

- Energy & Climate Change
- Food & Water
- Poverty & Equity

IIASA’s research comes under the following programs:

- Advanced Systems Analysis
- Ecosystem Services and Management
- Energy
- Evolution and Ecology
- Mitigation of Air Pollution and Greenhouse Gases
- Risk, Policy and Vulnerability
- Transitions to New Technologies
- Water
- World Population

IIASA has four futures initiatives:

- Arctic Futures Initiative
- Economic Integration within European and Eurasian Space
- Tropical Futures Initiative
- Water Futures and Solutions
