# Replenishment Case Study: *Hypothesis 2*

## Andhra Pradesh

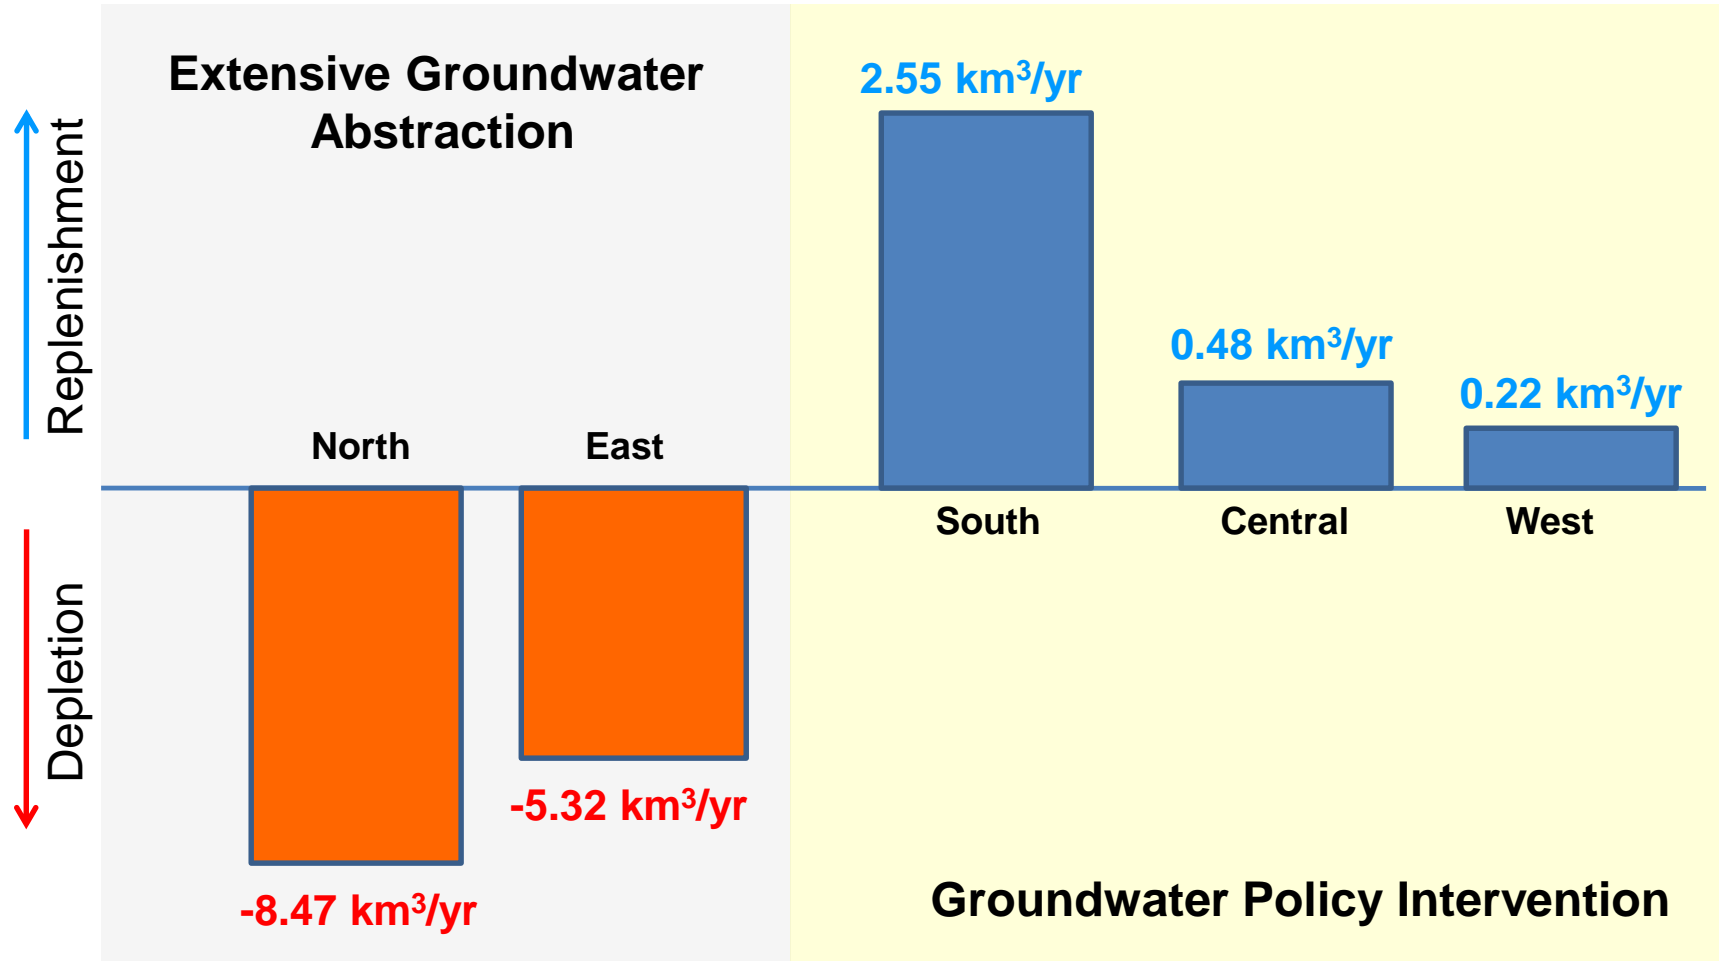

Increased creation of Surface water ponds, enhancing recharge

Statistical test with information  
from A.P.Govt Rep., 2014

Mukherjee and Bhanja, 2018

# Conclusion:

## Groundwater storage condition in INDIA in last decade

Home > India > India's falling groundwater storage being replenished: Study

# India's falling groundwater storage being replenished: Study

For the first time, researchers from India and abroad have given positive confirmation of replenishment of groundwater storage at the regional scale.

## Outlook

THE NEWS SCROLL

11 AUGUST 2017 Last Updated at 8:27 PM

## Replenishment of groundwater storage at regional scale

"We have been able to demonstrate the initial scenarios of rejuvenating groundwater in parts of India. Optimistically, this has the potential to eventually become the largest groundwater replenishment effort in the world."
