Chairman of the Board of Directors of "TMK"
The Sub-Commission on technical regulation, sanitary, veterinary-sanitary and phytosanitary measures of the Russian Government
Commission on economic development and integration

Advisory Committee on technical regulation, sanitary, veterinary and phytosanitary measures when the College of Eurasian
Economic Commission

The Council on technical regulation and standardization under Russian Ministry of industry and trade

RSPP’S committee on technical regulation, standardization and conformity assessment

Interdisciplinary councils on technical regulation and standardization
FINANCING OF STANDARDIZATION BY STATE AND INDUSTRY
DYNAMICS OF UPDATE OF NATIONAL STANDARDS FUND IN RUSSIA
TOOLS OF TECHNICAL REGULATION

• 40 technical regulations of EAEU are adopted, 35 are coming into force.

• System of accreditation is improving, the preparation to the Russia’s enters to International Laboratories Accreditation Cooperation (ILAC) is under way.

• The Law on Standardization is effectively implementing.

RSPP Committee and experts’ community actively participate in the improving of EAEU documents and implementation of Russian laws.
THE RSPP COMMITTEE'S COOPERATION WITH INTERNATIONAL STANDARDIZATION ORGANIZATIONS

American society of testing materials
UN Economic Commission for Europe
American Petroleum Institute
American society of mechanical engineers
International standardization organization
European Commission
British Standards Institute
Deutsch Institute for norming
China standardization administration
Eurasian Standardization Council
AFNOR
France national standardization body
European Committee for standardization

RSPP Committee for technical regulation, standardization and conformity assessment

Actively cooperates with international standardization bodies
TARGET FORCE ON TECHNICAL REGULATION OF ROUND TABLE
OF INDUSTRY OF RUSSIA AND THE EU

1. Innovation
2. Building
3. Energy
4. Forest Industry
5. Transport
6. IT, Telecommunications and Space
7. Financial Services

8. Technical regulation

Dr. Hans-Jörg Grundmann, Siemens AG
Sherpa: M. Reigl, responsible for regulatory subjects coverable by Siemens

Dr. Dmitry Pumpyanskiy, TMK
Sherpa: A. Lotsmanov, RSPP

Objective of the Task Force 8:
Formulate Industry’s Requirements and Priorities in EU - RF harmonized Technical Regulation to …

1. Future cooperation on the harmonization of technical requirements and decreasing of technical barriers.
2. Strive for EU-RF common market space.
INTERNATIONAL ACTIVITY OF RSPP COMMITTEE

Studing of international experience

IRT/TF 8 “Technical regulation”

Applying of international experience

- Technical regulations of Russia and EAEU
- Russian law on standardization
- Russian Law on accreditation
- Agreement “Rosstandart-CEN/CENELEC”
IRT/TF 8 RESULTS

In 2012 year by IRT/TF 8 was done the following work:

• Were prepared recommendations on the approximation of regulatory systems of Russia and the EU on **16 industrial and common areas**.

• The recommendations were for **230 pages**.

• In the drafting of recommendations participated **90 experts** from Russia and the EU countries.

• More than 40 documents have been translated from Russian to English and from English to Russian.

• Total sum of translations is amounted more than **3500 pages**.

• **40 bilateral** meetings were held between Russian and European experts.
RESULTS OF THE ACTIVITIES OF IRT /TF 8

✓ The Recommendations on the approximation of technical legislation of Russia, the Customs Union and the EU have been done taking into account the interests of the industry.

✓ The Mutual recognition Agreement between CEN/CENELEC and Rosstandart has been prepared taking into account the proposals of the Russian and European industries and opening the way for joint work on standards.

IRT/TF 8 Recommendations were downloaded in UN/ECE WP 6 web-site:
Conclusion of EU experts on the draft law “On standardization in the Russian Federation”:

1. The draft law has been drawn up in accordance with the latest world's best legislative practice.

2. Contains provisions which could serve as a model for other legislation.

3. Fully complies with the requirements of the WTO.
Art 27. The use of references to the national standards and information-technical guides in the regulations

1. Normative legal acts may contain references to the officially published national standards and information-technical guides.
FZ 162 “On standardization in the Russian Federation”

• Art 26. General rules for the application of the documents of the national system of standardization

Application of national standard is mandatory for the manufacturer and (or) the performer in case of public declarations of conformity to national standard, including where the designation of national standard is marking in operational or other documentation, and (or) product labeling familiar to the national system of standardization.
The new agreement **doesn't work** because no agreement has been reached on the texts:

1. There is no common approach to rules and principles of translation of EU standards in the Russian language
2. There are differences on the texts of the license agreement
February 18 – 20, 2015 in Moscow in RSPP was the meeting of CEN/TC 12 and Steering Committee of ISO/TC 67 with wide participation of Russian Companies.
The representatives of Russian industry discussed with ISO President Dr. Zhan Xiaogan and IEC President Dr. Jundji Nomura, Vice-president of CEN/CENELEC Dr. Bernhard Thies issues related with participation of Russian experts in international standardization.
INTERNATIONAL COOPERATION IN THE FIELD OF ACCREDITATION

In June 2017 Reaccreditation has received the status of Member of APLAC MRA Agreement.

A Khersontsev, head Rosakkreditaction, Interview to the journal “Standards and Quality”, № 8 (962) 2017

“The signing of the agreement with the APLAC opens direct route to accede to the Agreement on mutual recognition of ILAC MRA”
