Background - Vision and Aims

- **Vision:** To promote international collaboration towards preventing and reducing air pollution to improve air quality globally
- **Aim:** To act as a forum for international exchange and mutual learning, to facilitate the sharing of science, technical and policy expertise internationally

2022 – 2023 Workplan ambition

First Task Force Meeting – UK

- 10-11th October 2022 in Bristol, UK
- To help the Chairs set direction for the Forum.
- To provide input into the topics for discussion and cooperation at the Forum.
- To plan and support efforts to encourage a wide participation of Countries and interested experts to the Forum.

First Forum meeting 2023

- Linked to the March 2023 Saltsjöbaden Workshop – Sweden
- Aim to have an in-person event open for cooperation and collaboration

Discussion and suggestions in the chat:

- a) What capacity building work is currently happening under TFIAM? (including materials or workshops that TFICAP could promote)
- b) Where do you see areas of cooperation between TFICAP and TFIAM?
- c) Where is the opportunity for TFICAP to have the biggest impact on transboundary air pollution?
