

**Joint Meeting of
EC4MACS and the National IAM Network (NIAM)
International Institute for Applied Systems Analysis (IIASA),
Laxenburg, Austria**

DRAFT AGENDA

March 22, 2011

The 2011 Annual Meeting of EC4MACS will align the contents of the final EC4MACS assessment with the policy needs of the European Commission for the revision of the EU Air Quality legislation and further climate policy initiatives. While the EC4MACS work plan foresees the EC4MACS Final Assessment to be released in January 2012, the project could also deliver relevant information to these policy processes during 2011.

9.00 Welcome

9.10 Overall work plan for EC4MACS 2011 (Markus Amann)

9.20 Forthcoming policy needs for the EU climate policy by DG-CLIMA, and how EC4MACS could contribute (Ger Klaassen)

9.40 Forthcoming policy needs for the revision of the Air Quality legislation by DG-ENV, and how EC4MACs could contribute (Marcelo Lima, Joachim D'Eugenio)

10.00 *Coffee break*

Presentations by EC4MACS partners:

For each model, the presentations will cover the following issues:

- *What has been achieved in 2010* (3 min – 2 slides)
- *Information that is already available in the models on baseline development up to 2030* (3 min - 2 slides)
- *Quantified estimates of the uncertainties in the baseline development (5 min – 3 slides), e.g., due to*
 - *uncertainties about future economic development,*
 - *the success rate of implementation of existing policies,*
 - *impacts of other existing EU policies,*
 - *model parameter uncertainties, etc.*
- *How does the baseline projection compare to national projections/information?* (3 minutes – 2 slides)
- *Scope for further action up to 2020 and 2030* (3 minutes – 2 slides)

- *Potential impacts on the scope for further action from other EU policies that are under discussion (3 minutes – 2 slides)*
- *Critical linkages to other EC4MACS models that influence the scope for further action (2 minutes – 1 slide)*
- *Discussion (8 minutes)*

10.20 GAINS

10.50 PRIMES/GEM-E3

11.20 TREMOVE

11.50 CAPRI

12.30 Lunch

14.00 EU-FASOM

14.30 CCE-Impacts

15.00 Chimere

15.30 Coffee break

15.50 Benefits

16.20 Which information would be most helpful for

- the forthcoming climate policy initiatives (Ger Klaassen),
- the revision of the EU air quality directives (by June 2011, by January 2012) (Marcelo Lima, Joachim D'Eugenio)
(including discussion)

17.00 Departure

Annual EC4MACS Project Meeting

(closed meeting with EC4MACS project partners, the Commission and the Monitoring team)

**International Institute for Applied Systems Analysis (IIASA),
Laxenburg, Austria**

March 23, 2011

- 9:00 Discussion of the contents of the final assessment, and how information from EC4MACS could contribute to EU policy developments in 2011
- 10:00 Publicity to EC4MACS products (Final Assessment, Laymen report, brochure, web site, etc.)
- 10:30 Coffee Break
- 10:50 Information on monitoring requirements
Thomas Mayer – PARTICIP
- 11:10 Financial, administrative & contractual issues
Hans Benzinger – IIASA
- 11:30 Activities for each partner in the next 12 months Markus Amann - IIASA
- 11:45 Deliverables in the next 12 months Markus Amann - IIASA
- 12:30 Lunch

Afternoon:

Breakout groups to discuss specific aspects of collaboration:

- Urban air quality modelling (incl. CHIMERE, GAINS – facilitator: Markus Amann)
- Land use modelling (incl. EUFASOM, CAPRI, PRIMES, DNDC, GAINS – facilitator: Wilfried Winiwarter)
- Transport modelling (incl. PRIMES, TREMOVE, GAINS – facilitator Jens Borken)
